The *Incredible Years* DINA Classroom/Small Group Curriculum is a child training curriculum that strengthens children's social, emotional and academic competencies such as understanding and communicating feelings, using effective problem solving strategies, managing anger, practicing friendship and conversational skills, as well as appropriate classroom behaviors. The child training program can be used by counselors or therapists to treat "difficult" and highly aggressive children in small groups or can be used by teachers as a prevention program for an entire classroom of students.

11. What are some common barriers I might encounter with the Incredible Years DINA Small Group Therapy Curriculum?

- Materials sometimes are backordered for the IYS DINA Small Group Curriculum, particularly the puppets because they are handmade. This can cause a delay in implementation since the puppets are an integral part of the curriculum. Sites need to order materials as soon as possible or purchase alternative puppets that are available. (The EPISCenter can provide sites with information with alternative puppet resources)
- Training for small group facilitators needs to be scheduled as soon as possible because the demand for training can cause a wait time and slow down progress of implementation.
- Recruitment issues may occur for the DINA Small Group program. Depending on the location of the site, recruiting a sufficient number of children for the group may be an issue.

12. What evaluation tools should I use?

Below is the list of evaluation tools recommended by the Penn State EPISCenter to collect the outcomes needed to report to PCCD for the Incredible Years Dina Dinosaur Small Group Therapy Curriculum:

- EPISCenter IYS DINA Small Group Annual Facilitator Survey

You may obtain copies of these tools by contacting the EPISCenter at 814-863-2568 or download them from the EPISCenter’s website at http://www.episcenter.psu.edu.

Sites are expected to monitor implementation quality and fidelity. Fidelity observations are to be conducted by an observer who has been trained in the Incredible Years DINA Small Group Therapy Curriculum.

The EPISCenter provides funded sites with a spreadsheet for entering program outcome and process data and the ability to summarize and report that data to the Pennsylvania Commission on Crime and Delinquency. If more extensive analysis is desired sites may consider identifying an evaluator.

13. In what ways can I involve my local prevention board?

• Provide board members with a fact sheet and the program’s logic model.
